GALACTIC 3D

Galactic 3D is your one-stop destination for advanced manufacturing services. As pioneers in the field, we bridge the gap to the future with cutting-edge technology and expert support. We offer customized, efficient, and high-precision solutions across industries, delivering unmatched quality and innovation with every project.

Our services span across four key verticals:

- Design, DFAM & Data Preparation
- Contract Manufacturing & Part Printing
- Training, Skill & Entrepreneurship Development
- Capital Equipment Manufacturing

Precision Innovation Sustainability

Transform your ideas into reality with Galactic 3D's Contract Manufacturing Services. Leveraging our cutting-edge additive manufacturing facilities, we deliver customized, high-quality parts with unmatched speed and precision, supporting industries, including but not limiting to Aerospace, Healthcare and Automotive.

Sustainability in Manufacturing

Stringent Quality Control & Assurance

Rapid Turnaround with on time Deliveries

Advanced Manufacturing Facilities

Our Offerings

Rapid Prototyping:

Test and refine your designs quickly with our high-speed prototyping services. Perfect for concept validation and functional testing with certifications.

Full-Scale Production:

From low-volume batch production to large-scale runs, we deliver end-use parts with exceptional precision, speed and durability.

Custom Manufacturing:

Tailored solutions for complex designs, intricate geometries, and unique industrial needs.

Our Technologies

DMLS

SLS

FDM

DLP

Vacuum Casting

CNC Machining & Fabrication

Facilities Designed for the Future of Manufacturing

Where innovation meets precision to bring your ideas to life.

Our advanced manufacturing facilities are designed to support the full spectrum of additive manufacturing needs. Equipped with cutting-edge technology and expert staff, we ensure superior quality and efficiency at every step of the process.

Galactic 3D Print Farms & Design Lab

Metal

*Build Size : Upto 250*250*300mm,*

- Ti64AL4V, Ti64 Eli, Gr 5 & 23 (Titanium)
- AISi10Mg, AlF357, Al6061 (Aluminum)
- SS 316L, 17-4ph (Stainless Steel)
- MS1, HX, Hayens 282 (Tool Steel)
- MPI (Cobalt Chrome)IN718, 625, 939 (Nickel Alloy)

Polymer

*Build Size : Upto 250*250*250mm*

- PA 2200, 2202, 2210 FR, 3200 GF (Polyamide-12)
- PA 1100, 1101, 1102 (Polyamide-11)
- TPE (Thermo Plastic Elastomer)
- PLA, ABS, TPU, PEEK, TPE, PETG, PP and others.
- Resins: NYLON, AQUA, Transparent and others.
- Vacuum Casting: PU-ABS, PC, PP, Rubber and others.
